

DTR75

Product Description

DTR75 is a pressure-sensitive rubber resin adhesive on a roll for bonding difficult substrates such as polyethylene and polypropylene.

It cannot be used in combination with plasticised PVC

Features

- Clean and economical
- Easy to use straight from the roll
- Very high adhesion

Typical Applications

- Joining polythene sheeting
- Bonding polypropylene substrates
- Bonding kickplates
- Fixing carpets
- Mounting lightweight items
- Making products self-adhesive

DTR75	
Adhesive	Rubber resin
Thickness	0.4mm, 1mm, 2mm
Widths	12mm, 19mm, 25mm, 38mm
Tolerances	Thickness and width <10%
Colour	Transparent
Static shear	No movement allowed 250 g/25mm x 25mm @ 20°C
Tensile strength	550 kPa
Elongation	>1000%
Service temperature	-10°C to +40°C
Application temperature	Above +10°C
UV resistance	Poor
Durability	>10 years
Chemical resistance	Chemicals, oil and petrol will affect product
Shelf life	1 year

Please note: The above technical information is given as a guide and is based on recent test data obtained under laboratory conditions. Materials should be fully tested by the end user to establish suitability of the product for the intended application. October 2014
